Reopen your **Privacy on the Web** document

Add the following exercises and content to your **Privacy on the Web** document, continuing on a new page (**recall**: CTRL+Enter to move to a new page)

Subscripts and Superscripts

Microsoft Word has a lot of standard features such as using the **Font** area in the **Home** ribbon

Exercise 1) Create a Heading 1 styled piece of text **Chemical Formula**

Exercise 2) Use tabs and subscripts to re-create the following under the heading:

Glucose

Butane

Dihydrogen Oxide

Tables

Don't forget to make use of tables and merging cells to create images.

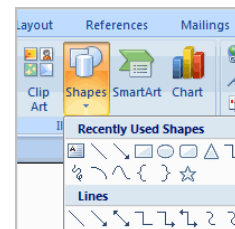

Exercise 3) Under **Chemical Formula**, create a new Heading 1 styled piece of text **Module Delivery**

Exercise 4) Recreate the following 2*3 table, making use of merging cells:

Caroline Cahill	On Campus & Online Delivery
Computing Class	
Semester 1	

Shapes

There are many shapes available in MS Word under the **Insert** ribbon

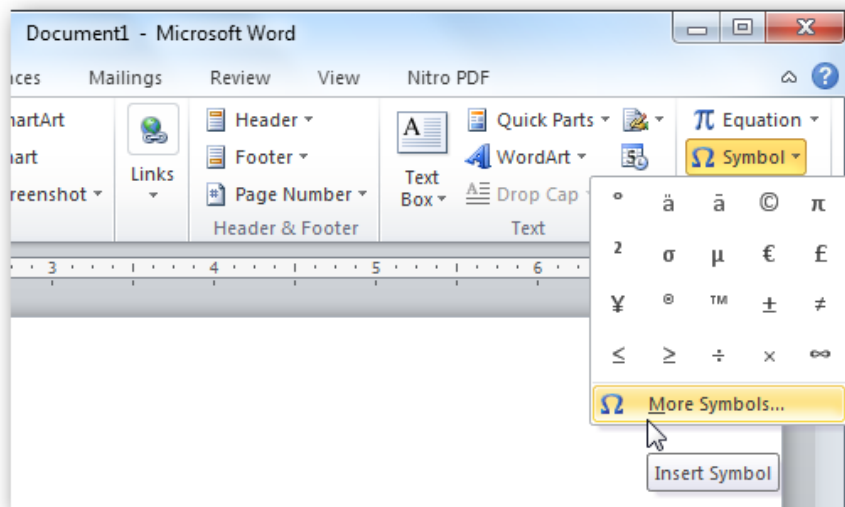

Exercise 5) Resize your table and add the below speech bubble to its right: format its shape fill, text colour and speech bubble outline:

Caroline Cahill	On Campus & Online
Computing Class	Delivery
Semester 1	

Are you comfortable with online delivery?

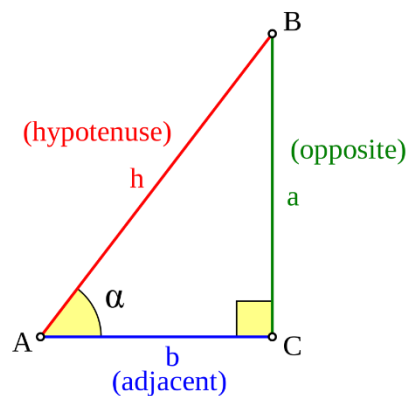

Symbols and equations

Special characters can be inserted via the same **Insert** ribbon:

Exercise 6) Recreate this mathematics equation, on a new page, under Heading 1 styled text

Maths Equation:

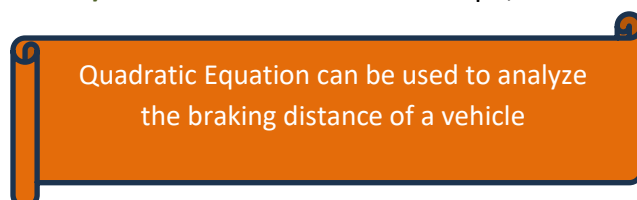

Exercise 7) Under the right angled triangle shape above, with Heading 1 formatted text **Symbols and Equations**, add the following numbered symbols and equations:

Part 1. $5 \geq x$

Part 2. ©SETU

Part 3. $\pi \approx 3.14$

Exercise 8) Recreate this banner shape, text

Exercise 9) Under **Insert/Equation** choose the **Quadratic Formula**

Exercise 10) Use the format paintbrush to continue the same formatting numbered list

Part 4. $x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$

Images

Exercise 11) Add in any image of a car (e.g. feel free to use images.google.com)

Image Cropping

Exercise 12) Resize & Crop the image to approx. 3cm square

Exercise 13) Using the Crop dropdown, choose any option from **Crop to Shape** and choose some effects.

Image Styles

Exercise 14) With your image selected, go to **Picture Format > Picture Styles**.

Using the **Picture Styles** grouping Apply borders, shadows, and reflections.

Using the **Adjust** grouping, amend the **Brightness & Contrast** using **Corrections**.

Text Wrapping

Exercise 15) Select the image and try reposition this image beside the Quadratic Equation

You need to allow Text wrapping:

With the image selected, go to the **Picture Format** tab

Click on **Wrap Text** and change to **Square**

Reposition this image beside the Quadratic Equation

Image Captions

Exercise 16) Select your image

Click **References /Insert Caption**

Add text to the figure caption

Creating Automated Table of Contents (based on Headings)

Exercise 17) Return to the very top of your document [CTRL+Home]

(if you don't already have a Table of Contents) Insert a new blank page [CTRL+Enter]

Again, return to the very top of your document [CTRL+Home]

Click **References**, Table of Contents

Choose the first option **Automatic Table of Contents**

Remember your **Table of Contents** is completely based on where you have chosen to add **Heading 1** styled text

Creating Automated Table of Figures (based on Captions)

Exercise 18) Under the Automated Table of Contents, go to **References/Insert Table of Figures**

Remember your **Table of Figures** is completely based on where you have chosen to add **captions**

Headers & Footers

Exercise 19) Check your name is in the document **header** & the page number in the **footer**

Homework Exercise:

Exercise 20) On a new page continuing from above, create a flyer to advertise any one of SETUs Clubs & Societies, including, at a minimum:

- a. A WordArt title
- b. At least 2 images, that include some of the above styling and text wrapping
- c. Some text about your topic of choice within a shape
